

# Organic Farm Knowledge Newsletter

## June 2021

Dear reader,

The Organic Farm Knowledge platform ([organic-farmknowledge.org](https://organic-farmknowledge.org)) provides access to a wide range of tools and resources about organic farming that can help improve production.

This month we want to highlight the [Organic advisory services](#) page. This list of organic advisory services in Europe is 'in the making', so please get in contact with any additions.

We are pleased to share our eleventh newsletter with you. We look forward to sharing more news with you in August!
